

Bhaskar Lamba

AI Agent Engineer — Conversational AI Agents & Full-Stack Delivery

+91 9306505417 | bhaskarlamba@gmail.com | linkedin.com/in/bhaskar-lamba-5268391b2

EDUCATION

IIT Kanpur

GPA 8.1/10

Bachelor of Technology, Mechanical Engineering

TECHNICAL SKILLS

AI & Agents: Oracle AI Studio, Conversational/LLM Agents, Prompt Design, Tool/Function-Calling Integration

Programming Languages: C, C++, Java, Go, JavaScript, Python, Dart

Backend & Databases: REST APIs, CRUD APIs, Node.js, Spring Boot, MySQL, Firebase

Web & Mobile: HTML, CSS, React, React Native, Next.js

Tools: Oracle VBS, Android Studio, Git, Postman, Codex

WORK EXPERIENCE

Senior Software Applications Engineer

Aug'24 – Present

Oracle India Pvt. Ltd.

- Own full-stack delivery of two enterprise talent management products — **Succession Management** and **Talent Review** — serving **400+ business customers**, covering UI, backend, and production reliability.
- Designed, built, and shipped a customer-facing **AI agent** for the Succession Management product on **Oracle AI Studio**, enabling core workflows — succession plan creation, team succession status queries, and criticality analysis — through natural language, backed by a custom backend/API layer.
- Designed and built a second conversational **AI agent, Talent Review Analyst** (in development, pre-release), that lets managers query and act on talent review data via chat: retrieving notes/tasks per employee, summarizing themes across the last **3 meetings**, prioritizing open tasks by due date/priority, and auto-generating pre-reads ahead of 1:1s.
- Engineered the agent for production-grade robustness — graceful handling of unsupported/out-of-scope queries and ambiguous employee-name resolution — with an extensible design scoped to support additional talent-management use cases.

Applications Engineer

Jun'22 – Aug'24

Oracle India Pvt. Ltd.

- Contributed to feature development across **Succession Management** and **Talent Review** enterprise products, building UI components and **REST APIs** as part of a cross-functional team.
- Orchestrated the migration of the **entire product** from a legacy Java-based system to a modern web architecture, modernizing the platform for enterprise customers.
- Delivered a critical **date-and-time** enhancement to the Talent Review **meeting date** field, evolving the underlying DB column from date-only to timestamp via a **Modify Column Strategy** on **Oracle Edition-Based Redefinition (EBR)** — a **zero-downtime** schema-change pattern that migrated production data with no service interruption.

Project Intern (Pre-Placement Offer)

Jun'21 – Jul'21

Oracle India Pvt. Ltd.

- Designed and implemented conversation flows within a **chatbot** to enhance user experience through intuitive interactions across multiple functionalities.
- Utilized **REST APIs** to retrieve and display data within the chat interface, providing users with timely and relevant information.
- Managed chatbot development from inception to completion, including comprehensive documentation, within a challenging **four-week timeline**.

PROJECTS

Online Fitness Rehab Coaching Platform

[Live Demo](#)

Firebase, Codex

- Built and deployed a **Firebase web app** to streamline **online fitness rehab** and coaching workflows, enabling coaches to send **structured workouts** and collect client feedback.
- Collaborated with **Codex** to rapidly iterate on product features and launched the app live on **Firebase within a single day**.
- Use the platform actively with **10+ coaches** and **30+ clients** to manage workout delivery, feedback loops, and rehab/coaching operations.

My Cricket Heroes

Web Application

Apr'23 – Jun'23

- Collaborated in a team of five to conceptualize and develop the **MyHeroes** application, mirroring platforms like **Dream11** to improve sports engagement.
- Tested the application concept during the **IPL'23 season**, integrating live scores and player statistics for **real-time updates**.
- Achieved a **75% increase** in user engagement during IPL'23 through live score and player information integration.

ACHIEVEMENTS

- Secured **AIR-1558** in JEE (Advanced) 2018 among approx. 2 lakh candidates.
- Won IIT Kanpur's **Outstanding Freshman Award** for exceptional performance, given to only **2 students** from the batch.
- Awarded **Institute Silver Medal** for achieving a Gold Medal and breaking the meet record in the Inter-IIT Sports Meet.
- Received **Sports Scholarship** from the Games and Sports Council, IIT Kanpur for two consecutive years.
